

Promax Shredders

Shred for up to 3 times longer*

Increased productivity

New motors with advanced cooling technology significantly improve run-times, meaning you can shred for even longer.

Modern design

Consistent look and clear hierarchy makes it easy for customers to choose from 10 available models.

Two security levels

Choice of P-4 cross cut (4x40mm) for secure destruction of confidential documents or P-2 strip cut (6mm) for shredding non-sensitive information.

Personal to small office use

Depending on the requirements, choose from personal 12- or 23L shredders to small office 35- or 38L models.

More shredding, less stopping

Promax Shredders

Shred for up to 3 times longer*

More shredding, less stopping

Promax Key features...

Code	Model	Security level/Cut type	Sheet capacity (80gsm)	Bin capacity	Run /Recovery time	To replace
